## ITS ADVANTAGES

**• An exceptional productivity:**

- ELIXIR distinguishes itself through its exceptional productivity (11% of the controls during its registration).
- It's characterized by an explosive start by spring and it keeps a high level of performance in summer/fall.

**• A healthy and tasty foliage all year long:**

- ELIXIR is particularly resistant to diseases (blights, helminthosporium) and it has an excellent health status.
- Its very healthy foliage guarantees a good consumption by animals

**• A very easy management of the grazing:**

- The high farming flexibility of ELIXIR (+ than 62 days) brings a real comfort in terms of grazing management.
- Its low aftermath growth ensures a good consumption by the cattle for each farming.
